Dear Manthan,

The admissions committee recently met and reviewed your application to the Master of Information Systems Management program (MISM 16-month track) at Carnegie Mellon University. Unfortunately, we are unable to offer you admission to the program.

Your application was given every consideration by the admissions committee. The admission process is very competitive, and we have limited space in the incoming class. We thank you for your interest in Carnegie Mellon and for the time and effort you invested in the application process.

We wish you every success in your future educational endeavors.

Sincerely,

David Eber
Executive Director of Admissions and Financial Aid
